— FOR IMMEDIATE RELEASE —

AUDIOSCAN ADDS TAIWAN TO EXPORT PORTFOLIO

“We are excited to add a new distributor to the Audioscan family. Founded in 1977, Tai E Tech. Corp. has a long history of equipment sales and service leadership in Taiwan” States Dave Cole of Audioscan.

Recently, a group of five key employees from Tai E visited the head office of Audioscan to receive training in service, support, and sales. This extensive training ensures that Audioscan customers in Taiwan will receive sales and service from factory-trained experts.

Audioscan products have received clearance from the Taiwan Department of Health and are available for purchase now.
